Other Popular vitamins Like Creatine 1000!

General Information and datasheet (Natural Balance)

"My husband uses Creatine and has been pleased with his results. He uses free weights and works out regularly. Creatine has increased his muscle build and gives him the stamina needed for intense workouts. He loves this product!"

Christy

R.

Kingsport, TN

Creatine Monohydrate - Creatine plays a vital role in the creation of ATP, the primary compound your body uses for energy. When muscles contract, ATP is broken down and energy is released. To recharge your ATP levels, your body borrows high-energy phosphate from the naturally occurring compound creatine phosphate. Thus, when high concentrations of creatine are present, your body can quickly release the large amounts of ATP needed to sustain high-powered muscular contractions.

DataSheet:

The Creatine 1000 Sale Price: \$9.39 - Vitamins or Herbs Should be taken as directed on the bottle.
