## General Information and datasheet (BARLEANS ESSENTIAL OILS)

Barlean's Greens

Why Green Foods? It's hardly a secret that our modern world produces food desperately lacking in minerals, vitamins, fiber, enzymes, carotenoids and antioxidants. Ever since the former Surgeon General, Mr. C. Everett Koop, pro-claimed the significance of poor diet and its relationship to disease, we've all been made fully aware of his now famous recommendation. A Minimum of 5 Servings of Vegetables and Fruits Daily! As sound as this advice is, it's far more practical to consume a concentrated and convenient source of plant derived foods.

Green food supplements, when properly formulated, are among the world's most nutrient-rich and beneficial superfoods. A quality green food supplement is a concentrated storehouse of these important phytonutrients and the minerals, vitamins, fiber, enzymes, carotenoids, and antioxidants that are stripped from modern day food. As Barlean's Greens emerges as the standard in green superfoods, your source of these valuable nutrients is just a spoonful away.

Setting The Standard

We formulated Barlean's Greens with a new vision for green foods in mind. We realized that certain changes were necessary in order to best serve you, the customer, and provide the most effective, nutrient-rich "super-foods" available.

Our

research showed us that three important changes were needed to provide the best possible product.

Increase the concentration of the nutrient and enzyme-rich green food. Avoid the use of filler and emulsi-fier ingredients like lecithin,\* and apple pectin because they add little nutritional value and displace more nutrient-dense ingredients. Make sure each ingredient is supplied in quantities sufficient enough to provide optimal nutritional value.

The Greener Green Food At least 50% more!

Barlean's Greens contains at least 50% more nutrients and enzyme-rich green foods per serving and is the only product available with our exclusive Biogreen 15:1 cereal grass juice concentrate. So, not only do you get a lot more greens per gram with Barlean's Greens, you also get the triple potency advantage with the Biogreen 15:1 concentrate. Barlean's Greens supplies 2892mg of our exclusive Biogreen formula containing equal proportions of organic barley leaf, rye leaf, oat leaf and alfalfa leaf. This triple potency formula combined with our other green ingredients, gives you the benefit of well over 7000mg of green superfoods per serving! Barlean's Greens – simply the Greener Green Food.

**Barlean's Greens™** contains only what is listed on the label. No other ingredients or fillers of any kind have been added. This product DOES NOT contain Gluten.

**Directions:** Put one heaping tablespoon (three teaspoons) in 8 oz. of pure water or juice of choice and simply stir. Barlean's Greens mixes instantly and tastes great. This nutrient rich super food can be taken one to three times daily.

After opening, Barlean's Greens is best stored in the refrigerator. Do not use if tamper proof seal is broken or removed.

Formulated and distributed exclusively by **Barlean's Organic Oils**

Product of U.S.A.

**Serving Size:**

Powder = 1 heaping tbsp. (8.8 grams)

VCaps = 12 capsules (approx. 8.8 grams)
