General Information and datasheet (NOW)

Carnitine Creatinate 1000 mg - 60 Tabs

PRODUCT #: 2010

UPC:

733739020109

Carnitine Creatinate Monohydrate is a specialized form of Creatine bonded to L-Carnitine. Creatine is a compound natural to the human body that aids in the regeneration of ATP, the chemical energy used by muscle tissue. During exercise, however, large quantities of creatine are irreversibly consumed. Clinical studies have shown that oral supplementation with Creatine can increase the amount of creatine available in muscle for ATP production. L-Carnitine is an amino acid that is necessary for the transfer of fatty acids into the fat-burning parts of the cell, facilitating energy production from fat. The combination of these two compounds, therefore can produce a synergistic effect, making NOW® Carnitine Creatinate an ideal energy supplement.*

Carnitine Creatinate Fact Sheet

Nutrition Info

Serving Size: 2 Tablets
