General Information and datasheet (NOW)

Serrazimes® is a proteolytic blend composed of enzymes derived from the edible fungi, *Aspergillus oryzae* and *Aspergillus melleus*. Scientific studies indicate that Serrazimes may help maintain and support cardiovascular and lymphatic health through its ability to help break down excess fibrin. Serrazimes® may also help support the immune system and promote a healthy response to external stresses. Serrazimes® is safe and effective when used as directed, providing enzymatic activity equivalent to Serrapeptidate (aka, Serrapeptase).*
