General Information and datasheet (SOURCE NATURALS)

Diet Pyruvate™

Helps Support Metabolism * 500 mg and 750 mg Capsules * Powder

Pyruvate plays an important role in metabolism and the energy production process. Pyruvate is the critical link between the cell's two main energy-generating cycles, the sugar-burning glycolytic cycle, and the Krebs cycle, which converts fats, carbohydrates and proteins into energy. Extensive research indicates that pyruvate may play an important role in a healthy diet and exercise program. Best if taken in conjunction with the Maximum Metabolism Weight Loss Plan.

Supplement Facts for powder		
Serving Size: 1 rounded teaspoon		
	Amount	%DV
Calcium Pyruvate Monohydrate	480 mg	
(as 3 grams calcium pyruvate monohydrate)		

Other Ingredients: gelatin (capsule) and maltodextrin.

Warning: If you are pregnant or breastfeeding, or diabetic, consult your health care professional before using this product.

Suggested Use: Take one rounded teaspoon 1 to 2 times daily (3-6 grams), briskly stirred or blended, with 8 oz water or juice. For best results, blend in apple juice for 30 seconds.

contains no yeast, dairy, egg, gluten, corn, soy or wheat. Contains no sugar, starch, salt, preservatives, or artificial color, flavor or fragrance.
