## [General Information and datasheet \(SOURCE NATURALS\)](#)

### Biotin

#### 600 mcg and 5 mg

Biotin is a water-soluble vitamin that is required by our bodies due to its involvement in carbohydrate, protein, and fat metabolism. Biotin is a cofactor in a wide variety of enzymatic reactions. It also helps form and maintain chemical structures known as "crosslinks" within the main protein found in hair and nails (keratin). Maintenance of these crosslinks helps to promote hair and nail strength.

#### Supplement Facts for 5 mg

Serving Size: 1 tablet

|        | Amount | %DV    |
|--------|--------|--------|
| Biotin | 5 mg   | 1,670% |
