General Information and datasheet (SOURCE NATURALS)

DHEA 7-Keto

DHEA Metabolite

DHEA, the most abundant steroid in the blood of adult humans, peaks in early adulthood and declines with age. Animal research indicates that 7-Keto™, a natural metabolite of DHEA, is a more active inducer of thermogenic enzymes than DHEA. Research on humans has shown that supplementation with 7-Keto™ is well tolerated. It is not converted to estrogens or androgens, a point of concern for many people.

Supplement Facts for 50 mg		
Serving Size: 1 tablet		
	Amount	%DV
7-oxo DHEA acetate	50 mg	†

Other Ingredients: microcrystalline cellulose, stearic acid, and magnesium stearate.

Warning: If you are pregnant, breastfeeding, or taking any medication, consult your health care professional before using this product.

Suggested Use: 1 tablet daily.
