General Information and datasheet (SOURCE NATURALS)

Red Marine Algae

350 mg

Red marine algae has been a valued food in Asia for thousands of years due to its highly nutritious qualities. Carrageenans, a family of polysaccharide compounds extracted from algae, have been studied for their unique properties. In vitro studies show that carrageenans aid in a cell's natural defense by significantly minimizing the binding of unfriendly proteins to the cell's surface.

Supplement Facts		
Serving Size: 1 tablet		
	Amount	%DV
Red Marine Algae (<i>Gigartina skottsbergii</i>)	350 mg	†
