General Information and datasheet (SOURCE NATURALS)

AHCC® Plus

Increases Natural Killer Cell Activity

This product Plus is combination, a proprietary compound researched extensively for its immune enhancement properties, with three powerful immune and cellular defense nutrients - selenium, tocotrienols, and gamma vitamin E. According to human and animal research, this product may significantly increase Natural Killer (NK) Cell activity, increase macrophage activity, enhance cytokine production, support healthy liver function, as well as act as an antioxidant. Some scientific evidence suggests that consumption of selenium and antioxidant vitamins may reduce the risk of certain forms of cancer. However, the FDA has determined that this evidence is limited and not conclusive.

Supplement Facts		
Serving Size: 2 capsules		
	Amount	%DV
Vitamin E (as d-alpha tocopheryl and d-alpha tocopherol)	155 IU	520
