Extra Protection for Children's Sensitive skin

EcoGuard

Bandages for kids are 100 percent sterile, latex-free bandages, using recyclable PVC plastic instead, with a water-based adhesive instead of a solvent-based or alcohol-based adhesive. Recent reports in scientific literature indicate that 1 to 6 percent of the general population is sensitized to latex. According to the reports, the only way to prevent reactions to latex is to avoid contact with it.

In assorted colors and designs, EcoGuard Bandages for kids use natural food-grade colors and pigments, and involve no testing on animals.
