General Information and datasheet (CHAMPION NUTRITION)

ALL-NATURAL HYDRATION FUEL!

Designed for the athlete who wants a great-tasting energy drink without stimulants. For the athlete that doesn't require the "high-octane rocket fuel" found in REVENGE PRO, we offer REVENGE SPORT.

Whether you're exercising after work or school, day or evening soccer games, or bicycle rides anytime - REVENGE SPORT brings your energy back and helps you stay at your peak without stimulants that could interfere with restful sleep.

Made with All-Natural non-controversial ingredients and plenty of vital nutrients to maintain your exercise performance. REVENGE SPORT is the ideal exercise drink for anybody - And, since REVENGE SPORT contains no stimulants, it makes it convenient to use it anytime.

In addition REVENGE SPORT™ replenishes these vital nutrients: Electrolytes - Helps replenish those valuable electrolytes lost

during intense exercise - Electrolyte replacement is crucial to help prevent cramping and improve fluid absorption and transport of nutrients into exercising tissues.

Glutamine - A natural amino acid, improves nutrient absorption and helps speed recovery by sparing muscle from being cannibalized by cortisol released during training.

Succinates - An essential part of every living tissue, helps improve stamina and reduce damage to muscle tissue during intense exercise.

Ribose - Present in every cell of your body. Helps improve recovery, stamina and helps to maintain ATP levels at their peak.

Citrates and lactates - A normal part of muscle cells. Help absorb acid made during exercise and prevent burning and cramping so you can train more comfortably and with more energy.

Low-glycemic carbohydrates - Help reduce the tendency for low blood sugar by encouraging the controlled release of insulin.

Chromium - Helps increase energy (glucose) transport into muscles during exercise.

Vitamins C & E: Two essential antioxidant vitamins that improve your chances at reducing cellular damage.

How does REVENGE SPORT™ compare to a leading sports drink?

REVENGE

SPORT is part of The Endurance System

The Endurance System is a

BEFORE, DURING and AFTER sequence of products that can increase your stamina during long, intense activity and allow you to recover stronger. It was originally designed to optimize the metabolism and thus the performance of the endurance athlete.

REVENGE SPORT is the product recommended to be used DURING your event or training.

Called "the secret weapon" by Pro

Cycling Team Manager Jim Copeland, The Endurance System has been used religiously by the world's best professional athletes for more than six years. Athletes such as Tim DeBoom, Steve Larsen, The Rocky Mountain Pro Race Team, and Team Mongoose utilize The Endurance System to ensure their win. Serious competitive amateur athletes everywhere are now discovering this new revolution in sports nutrition. For further information, please go to THE ENDURANCE SYSTEM page.

Ingredients:

Metacarb-Sport

(proprietary low-glycemic carbohydrate blend which includes maltodextrin and amylopectin starch), fructose, lactic acid buffer blend (sodium and potassium lactate, magnesium lactate, sodium citrate, potassium citrate), dextrose, citric acid, NitroSport blend (D-ribose, L-glutamine, sodium succinate, potassium succinate, glycine) fruit concentrate, natural flavors, beta carotene, vitamin E, ascorbic acid, sodium alginate (from sea algae), salt, quercetin, chromium polynicotinate.

Note: - Nutritional Facts and Ingredients may vary slightly depending upon flavor

Frequently Asked Questions:

What is the lactic acid buffer in REVENGE SPORT?

REVENGE SPORT uses a blend of lactates and citrates to buffer the appearance of lactic acid during exercise. By buffering lactic acid and providing glucose to exercising muscle, REVENGE SPORT helps ameliorate lactic acid buildup in muscle.
