Cytodyne XENADRINE SUPER HARD CORE 90 CAPS

What is Xenadrine

Super Hardcore?

New Xenadrine Super Hardcore is the first non-ephedrine-based thermogenic and nootropic supplement in history! Not since the availability of ephedrine-based dietary supplements has a weight loss product existed offering both thermogenic and nootropic properties. New Xenadrine Super Hardcore now offers those same mind-to-metabolism benefits.

What does Xenadrine Super Hardcore Do?

The thermogenic concept

is known to many people: a substance that helps to increase metabolic rate and burn fat. The concept of nootropic is a term coined to mean a substance that act on the mind in enhancing positive mental function and appetite control - both of which may play important roles in successful weight loss when

used in combination with a calorie-controlled diet and exercise program. New Xenadrine Super Hardcore offers the best of both worlds. When used as directed, this formula, which is free of ephedrine-group alkaloids, is naturally safe and delivers both thermogenic and nootropic benefits not previously available in non-ephedrine supplements!

#### How Do I Take Xenadrine Super Hardcore?

Proper use of Xenadrine Super Hardcore varies from individual to individual, but you should adhere to the following guidelines to help ensure better results and safety. Based on its energizing effects, you may assess your personal tolerance, taking from 1 to 3 capsules at any one time as your body adjusts to the proper dosage. Do not, under any circumstances, exceed 3 capsules at any time (6 capsules maximum during a 24-hour period). As a dietary supplement, in the morning, take 2 capsules with breakfast or 30 minutes prior to training, and 2 capsules mid to late afternoon. Consume 3-4 8oz. glasses of water per day. Read entire label before use and follow directions.

Warning: DO NOT TAKE WITH ANY OTHER STIMULANT OR WEIGHT LOSS SUPPLEMENTS CONTAINING CAFFEINE. Do not exceed 6 capsules in any 24-hour period. Keep out of the reach of children. Not intended for persons under 18 years of age. Not intended for use by those with a medical condition. Use only as directed. Do not exceed recommended daily intake. Do not use if you are pregnant or nursing or at risk of or being treated for high blood pressure, heart disease, renal disease, hyperthyroidism, spasms, psychiatric disease, suffer from migraines, are allergic to tyramine or chocolate, have asthma, or are taking asthma medication. Theoretically, the natural ingredients in this product together with caffeine may increase the risk of hypertensive crisis and anxiety. Therefore, individuals prone to these conditions should not use this product. Consult your physician before use if you are taking a monoamine oxidase inhibitor (MAOI). One serving of this product contains about as much caffeine as two cups of coffee and should not be taken by individuals wishing to eliminate caffeine from their diet. Limit use of caffeine-containing foods and beverages while taking this product because too much caffeine may cause nervousness, irritability, sleeplessness, and occasionally, rapid heartbeat. Use only as directed. Failure to read and follow all of the directions of use and heed the warnings can be dangerous to your health. Consult your health care professional before using this product. \*DOES NOT CONTAIN EPHEDRINE-GROUP ALKALOIDS.
